

NOTICE OF A RATE HEARING

Wataynikaneyap Power LP has applied for approval of its 2027-2031 transmission rates and other charges

Wataynikaneyap Power LP (Wataynikaneyap Power) owns and operates approximately 1742 kilometres of electricity transmission lines in northwestern Ontario (Transmission System). A portion of the Transmission System reinforces service to Pickle Lake (Line to Pickle Lake). The remainder of the Transmission System provides service to remote First Nations north of Pickle Lake and north of Red Lake (Remote Connection Lines). Electricity distribution service in the remote First Nations is provided by Hydro One Remote Communities Inc. (HORCI).

Wataynikaneyap Power has applied to the Ontario Energy Board (OEB) for approval to change its electricity transmission rates and fixed monthly charges to HORCI effective January 1, 2027. The application seeks orders approving the following:

- A total transmission revenue requirement of approximately \$149 million for the 2027 test year effective January 1, 2027 consisting of:
 - Approximately \$32 million to be recovered through Uniform Transmission Rates for the Line to Pickle Lake
 - Approximately \$117 million to be recovered through fixed monthly charges to HORCI for the Remote Connection Lines
- Implementation of a Revenue Cap Incentive Rate-setting framework for the 2028–2031 period, under which the approved 2027 revenue requirement will be adjusted annually based on inflation less an amount intended to promote productivity improvements
- Establishment of an Earnings Sharing Mechanism whereby earnings more than a specified threshold will be shared with rate payers
- The disposition, continuation, and discontinuation of certain deferral and variance accounts

If the application is approved as filed, the monthly bill of a typical residential customer and a typical general service customer would decrease by the following amounts:

Residential (750 kWh)	-\$0.05 per month
General Service less than 50kW (2,000 kWh)	-\$0.15 per month

Any change to the provincial transmission rate will be reflected on the delivery line of the electricity bill for all electricity customers in Ontario. It is important to review the application carefully to determine whether you may be affected by the proposed changes.

This hearing will be held under section 78 of the **Ontario Energy Board Act, 1998**, S.O. 1998, c. 15 (Sched B)

Ce document est aussi disponible en français.

YOU SHOULD KNOW

There are three types of OEB hearings: oral, electronic and written. The applicant has applied for, and the OEB plans to proceed with, a written hearing. If you think a different hearing type is needed, you can write to us to explain why.

During this hearing, we will hear questions and arguments from participants about this case. We will also hear questions and arguments from participants that have registered as Intervenor. After the hearing, we will decide whether to approve the application.

HAVE YOUR SAY

You have the right to information about this application and to participate in the process. Visit www.oeb.ca/notice and use file number **EB-2026-0152** to:

- Review the application
- File a letter with your comments
- Apply to become an intervenor

IMPORTANT DATES

You must engage with the OEB on or before **July 16, 2026** to:

- Provide input on the hearing type (oral, electronic or written)
- Apply to be an intervenor

If you do not, the hearing will move forward without you, and you will not receive any further notice of the proceeding.

PRIVACY

If you write a letter of comment, your name and the content of your letter will be put on the public record and the OEB website. If you are a business or if you apply to become an intervenor, all the information you file will be on the OEB website.
